

# FIBROMYALGIA: The Secret To Feeling Good Again...

## Natural Therapies To Strengthen Your Body and Restore Your Health

If you suffer from any or all of the following, you may have Fibromyalgia, a syndrome that can make your life difficult at best and debilitating at worst. Getting relief is frustrating for patients, but doctors can be equally frustrated in trying to diagnose and treat Fibromyalgia.

- **Chronic Pain**
- **Disturbed Sleep**
- **Fatigue**
- **"Restless Leg"**
- **Depression**
- **Weight Gain**
- **Aching**
- **Memory Loss**
- **Stiffness**
- **Irritable Bowel**
- **Anxiety**
- **Heartburn**

Because the underlying cause can vary greatly from person to person, conventional treatment is not working for many.
